The built-in contours of Katera guest chair are designed to follow the curves of the human body. Its well-proportioned frame invites those of any size to sit with ease.

Key Features

A **Comfort**
Waterfall front seat edge eliminates pressure points for a long-term sit. Backrest and seat are designed to follow the curves of the human body, creating built-in contours that fit the user.

B **Material Options**
Available in all poly, poly with upholstered seat, all wood, wood with upholstered seat, or upholstered seat and back.

C **Ganger Options**
Retractable ganger mounts to underside of chair frame. Gangs with arms or armless. Field installable.

D **Optional Arms**
Available with integral polypropylene/glass-reinforced arms with a steel insert for maximum strength. Designed for an open feel and additional room for users of all sizes.

E **Glides**
Optional black plastic, steel, or felt snap- in glides are level with the floor to reduce wear. Glide caps are interchangeable and field-replaceable.

F **Stacking**
Poly or wood guest chairs stacks 12-high on dolly for ease of movement and storage or 6-high on the floor.
