

MyPlace™ Lounge Seating

Create dynamic configurations with a robust variety of shapes and sizes. MyPlace lounge seating offers versatility in specification, elevating lounge and third spaces.

Key Features

- A** **Endless Shapes**
Linear and curved models in a variety of shapes and sizes allow for infinite configurations. Available in backless, 32" low-back as well as 48" and 60" high-back models for privacy and space delineation.
- B** **Contrasting Fabrics**
Select from a wide range of approved Pallas Textiles or KI upholstery. Contrast or match fabrics on base (B1), seat (B2) and back (B3) selections.
- C** **Reconfigurable Spaces**
Robust yet lightweight construction in a variety of shapes and sizes supports reconfiguration for ever-changing spaces.
- D** **Base Styles**
Casters, concealed glides, poly, wood, or aluminum base options fit any aesthetic or flooring requirement. Casters not available on high-back models or on select backless and low-back models.
- E** **Optional Power**
Added powers provide one 125-volt AC simplex receptacle with one USB Type A + C port per module. Two options are available for powering modules: corded for single units or multi-unit daisy chain or support ganged configurations. The daisy chain solution can power up to eight modules with one infeed (infeed ordered separately) and is available on high-back models only. High-back models may be equipped with up to four power modules per unit with front and back placement options. High-back seats are removable, providing access to power components and easing cleanability. Cord management ships with high-back lounges.
