Pirouette® Tables

Pirouette is a comprehensive table line that offers a variety of worksurface shapes, base styles and heights to help create cohesive and adaptive spaces.

Key Features

A **Worksurface Shapes**
Fixed-height tables are available in nine top shapes. Adjustable-height tables are available in rectangle or chevron shapes.

B **Base Heights**
Adjustable-height and varied fixed-height bases support tiered and flexible environments. Adjustable-height tables are available with pneumatic or screw adjustment in a range of 29–44". Fixed-height bases are available in 29, 36, and 42" heights.

C **User Comfort**
Maximized leg spacing enhances user comfort. Collaborative base legs inset an additional 6", allowing seating on all four sides.

D **Compact Storage**
Table top locking handle is a single-handed lever that flips the worksurface vertically into nested position while angled leg supports inline nesting.

E **Nesting T-base**
Innovative base design allows Pirouette to be used as a dual-sided table. The articulating leg of fixed-height bases and angled leg of the adjustable-height bases allow any nesting table to be stored together at any height.

F **Organized Power**
Power is available as corded or single circuit with vertical wire manager and Velcro straps attached to worksurface. Single circuit power includes trough attached to worksurface.
Trough may be specified separately.

Styles

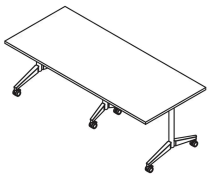

*Larger table styles may require additional support leg(s).
