Sway® Lounge Seating

The first of its kind, Sway lounge seating breaks free from conventional movement and enables dynamic orbital motion. Move front to back, side to side and everywhere in between with a smooth 360-degree swivel. Complement the Sway lounge chair with a coordinating ottoman and occasional table, both of which share the same base profile to carry a consistent look.

Key Features

A Comforting Privacy

Cushioned and curved form provides comfort while high back adds feelings of security and privacy.

B Sustainable Design

Constructed with post-consumer recycled thermoplastic, Sway shells are 100% recyclable. In addition, the upholstered seat and back cushions are field replaceable, extending the life of the product.

C Orbital Motion

Smooth 360-degree swivel allows for 12 degrees side-to-side and 15 degrees front-to-back motion.

D Modern Finishes

Specify the shell and base as matching or contrasting by choosing from four colors: Arctic White, Cool Grey, Light Tone, and Warm Grey. Choose from Pallas Textiles, KI ingrade, or COM for the upholstered seat and back that can be specified as matching or contrasting.

E Upholstered Ottoman

Coordinating ottoman and occasional table share the same base profile to carry a consistent look.

F Glide Options

Available with rubber non-skid, nylon or felt.
