

## U-Series™ Storage

Create a productive, efficient workplace with U-Series storage. Storage elements maximize space, making the most of small footprints without compromising functionality.

# Streamlined Storage Solutions

Foster a productive and streamlined workspace using U-Series storage. These storage solutions optimize space utilization, ingeniously maximizing compact footprints while preserving functionality. U-Series stands as a cost-effective and remarkably efficient choice for various applications.

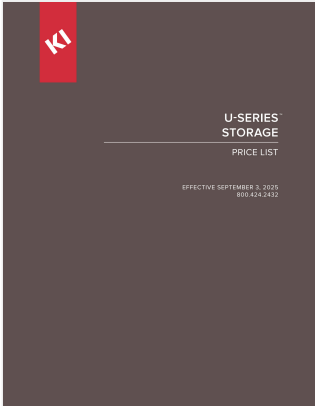

## Features

- **Lateral Files** - Efficient storage solution for various workstations and application styles.
- **Pedestals** - Available as mobile, freestanding, worksurface-supporting and double pedestals. Drawer configurations available as file/file and box/box/file.
- **Underfile Cabinets** - Comprised of sliding door units, which combine the accessibility of shelves with the security of a storage cabinet.
- **Wardrobe Towers** - Exceptionally efficient storage solution that makes the most of even the smallest footprints by utilizing vertical space.

## Construction

- All units constructed of steel.
- Box and file drawers feature smooth riding ball-bearing glides.
- Feature ADA-compliant nickel-plated loop pulls.
- Available with adjustable glides.
- Comes standard with master keyable, P-Series lock cores and can be specified as randomly keyed, without lock core, or keyed alike and are compatible with other KI key-alike storage lines.
