

Uniframe Convertible Bench

Easy to move, rearrange, store and clean under,
Uniframe® convertible benches make it easy to
accommodate any number of functions in one space.

Convertible Seating Solution

Food service spaces frequently serve as study halls and meeting venues. A bench offering back support, a worksurface, and a cafeteria table in one - that's what the Uniframe Convertible Bench delivers at an economical price. Its operation is hassle-free.

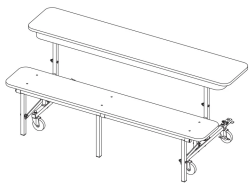

Features

- Uniframe convertible benches can be a bench with back support or a bench with worksurface
- Standard ganging mechanism allows two tables to be locked together into a common unit
- Fold seats up to move benches or to nest for compact storage
- Two heights: 27" or 29"
- Two vinyl edge styles of KI's exclusive Perfect Edge

Construction

- Bench surfaces are made of 45 PCF high-density particleboard with high-pressure laminate surface
- Frames are fabricated using a welded unitized construction
- The main pivoting folding mechanism and the leg supports are heavy-duty 14-gauge steel
- Painted frame finish is non-chipping electrostatically applied and baked - black only
